

AQUAINTECH INC.

Technical Specification AquaPro F

Product Name: AquaPro F

Product Type:

A blended mixture of 5 *Bacillus* species, the prebiotic mannan-oligo saccharide (MOS) and enzymes to assist in the initial breakdown of nutrients present in the feed. Intended for use in the feed although it can also be used in the same manner as AquaPro B if the activity of more than 2 bacterial species is desired.

Product Composition:

Five selected species are mixed together. Total content is not less than 4 trillion CFU per kg. The exact composition of the blend is proprietary as are strains. *Bacillus subtilis*, *B. licheniformis*, *B. megaterium*, *B. pumilus* and *B. polymyxa* are mixed with MOS (content proprietary, although it is no less than 6.35%) and crude enzyme extracts from microbial and fungal sources containing cellulase, amylase, proteases and lipases. Calcium silicate is added to bring unit weight to a kg.

For specific lot information, consult the certificate of analysis that accompanies each individual shipment.
